Why is the Mainstream media not all over this hoax? Have they not figured it out yet? Or are they part of people who orchestrated the whole thing?

PM of New Zealand is a subjugated quivering bowl of Jello. She isn't fit to work in a fabric store.

Also noted, shell casings are ejecting FORWARD. This is unheard of.

This video is solid evidence that the New Zealand attack was a hoax. The ammo magazine already on the floor when the alleged shooter entered the mosque suggests to me that there was a rehearsal or more than one "take" in the process of filming what was obviously a staged event of political propaganda theater that was performed by actors.

To go "FLYING BACKWARDS" from a gunshot , the shooter would also be sent flying the same distance when they engage. It's fucking physics. It's extremely frustrating seeing people with absolutely no basic firearms or ballistics knowledge think they have everything figured out because it doesn't look like a Rambo movie.
